

# Compound Verbs with Examples

Structure:: 1 Compound Verb = 1 non-finite verb + 1 finite verb

## Compound Verb Groups

A small number of finite verbs show up again & again in these compound verbs.

We'll group the compound verbs based on their finite verb component.

Some of those finite verbs (their roots) are:

- ja যা
- dēkh দ্যাখ্
- pōr পড়্
- di দি
- ni নি
- phēl ফেল্
- uṭh উঠ্
- lag লাগ্
- thak থাক্
- ash আস্

## Note that...

- Originality:** You can not invent usage of these compound verbs. These are like using appropriate prepositions in English, or phrasal verbs in English.
- Exposure:** The only way is to get exposed to more and more examples of these.
- Approach:** Our goal in this lesson is to explore some categorized examples of these verbs, which may boost our pattern recognition in this topic.

## Example usages
